## Professional Summary

Results-driven Full Stack Developer with over 1 year of professional experience building and deploying robust web applications using the MERN stack (MongoDB, Express.js, React, Node.js). Adept at designing scalable backend systems, crafting dynamic frontend interfaces, backed by strong proficiency in SQL/NoSQL databases and cloud fundamentals (AWS) with a strong grasp of Git, version control, SEO, and CI/CD workflows to maintain high development standards.

## Key Skills

- |                      |                            |                 |
|----------------------|----------------------------|-----------------|
| ❖ React.js           | ❖ MVC Architecture         | ❖ GitHub        |
| ❖ Next.js            | ❖ Bcrypt.js                | ❖ CI/CD         |
| ❖ JavaScript (ES6+)  | ❖ File Upload (Cloudinary) | ❖ Debugging     |
| ❖ Tailwind CSS       | ❖ Server Side Rendering    | ❖ Postman       |
| ❖ SEO Optimization   | ❖ MongoDB                  | ❖ Zustand       |
| ❖ React Hooks        | ❖ Mongoose                 | ❖ Redux Toolkit |
| ❖ Node.js            | ❖ MySQL                    |                 |
| ❖ Express.js         | ❖ Oracle                   |                 |
| ❖ RESTful APIs       | ❖ NoSQL                    |                 |
| ❖ JWT Authentication | ❖ Git                      |                 |

## Education

BSc (Hons) Computing | (2021 – 2024) | London Metropolitan University, Islington College, Kathmandu

School Level Certificate | (2019 – 2021) | Kathmandu Model College, Kathmandu

## Professional Experience

### Frontend Development Intern | 2023 – 2024 | Seek International Education Services Pvt. Ltd.

- ❖ Transformed Figma prototypes into responsive web interfaces using React and Tailwind CSS.
- ❖ Employed Git and GitHub for collaborative development and implemented SEO-friendly practices to enhance frontend performance.

### Full Stack Developer | 2024 – 2025 | Robotics Association of Nepal [RAN]

- ❖ Developed scalable full-stack applications with Next.js, Express, and MongoDB, integrating RESTful APIs with CRUD operations and secure auth.
- ❖ Collaborated cross-functionally to deploy user-facing features, ensuring responsiveness, CI/CD integration, and robust version control via Git.

### Full Stack Developer | 2025 – Present | Supreme IT Solutions Pvt. Ltd.

- ❖ Led the development of modular, SEO-optimized web platforms using Next.js, Zustand, and Strapi CMS, with dynamic routing and reusable components.
- ❖ Enhanced UX through custom sliders, mobile navigation, and modals while maintaining high performance, clean Git workflows, and CI/CD deployment pipelines.

## Projects

### **Social Media App – MERN**

Built a full-featured social platform with CRUD post management, comment threads, email verification, and real-time friend requests. Implemented JWT auth and responsive design for mobile and desktop.

### **Portfolio Website – THREE.JS**

Developed an interactive portfolio using Three.js and React featuring 3D animations, smooth transitions, and responsive design. Showcased personal projects and skills with modern UI, scroll-based effects, and performance optimization.

### **E-Commerce Website – MERN**

An e-commerce platform for buying clothes that handles client requests, generate dynamic responses, stores cookies and many more.

## Certifications

- ❖ [AWS Academy Cloud Foundation Badge](#)
- ❖ [AWS Academy Machine Learning Foundation Badge](#)
